SISTEMA DI RISPARMIO ACQUA ED ENERGIA

WATER AND ENERGY SAVING SYSTEM

Per promuovere il risparmio idrico ed energetico Tiemme ha imposto un nuovo standard per i suoi miscelatori, introducendo cartucce monocomando che hanno due caratteristiche speciali:

RISPARMIO IDRICO

Per avere più portata d'acqua bisogna vincere una resistenza in apertura (evita sprechi durante l'inconsapevole apertura dell'acqua).

RISPARMIO ENERGETICO

I rubinetti Tiemme aprono al centro dando acqua fredda, l'acqua calda esce solo con una rotazione della leva verso sinistra.

In order to promote water and energy saving Tiemme has set a new standard for its mixers, by introducing singlecontrol cartridges with two special characteristics:

WATER SAVING

It is necessary to overcome an opening resistance in order to have a greater water flow (it avoids any unnecessary consumption during the unaware flowing of water).

ENERGY SAVING

Tiemme faucets open at the centre and give cold water, while hot water flows only by rotating the lever to the left.
